

“””TO ALL WOMEN OUT THERE: How many of you women have ever said "Next time, I want to come back as a man"? Well, here's your chance. Scott Stevenson is the kind of man you'd want to be. Sensitive, loving, kind beyond measure, spiritual, funny and fun-loving, and very self-aware. AND ALSO very much a man: able to envision, plan and build homes, fix anything in them, supervise crews of construction men (AND women), figure out and execute anything he puts his mind to, be reliable and flexible -- plus he is strong, solid and very masculine. AND he has written a book that details how he lives life -- how he thinks, what he does, how he copes, and how he deals with whatever life hands him -- both the catastrophes and the miracles. This is a great opportunity for all us women to immerse ourselves in the experience of "being" this great guy for as long as it takes to devour this book.”

-----Linda Blackstone, LCSW, San Francisco, CA

“THIS BOOK READS EASY ENOUGH! Scott's writing style is fun, self-effacing, descriptive and action packed. I picked up the book and read through the first 75% in two days! I connected with Scott's book, *Looks Easy Enough*, on so many levels. My wife, like Susan, has had breast cancer, so hearing about this part of their journey reminded me about the connection it created between us and how close we are now. And my wife and I rebuilt a house in a nature setting, so again the parallels to Scott's and Susan's journey were fun and many. Thank goodness we never had to live through their harrowing fire experience, although Scott's writing made it feel like I was living through it! It is a great book to read, to share and Easy Enough to recommend to others.”

----- Dr. Bruce Bloom

President and Chief Science Officer, *Partnership for Cur*

“A WELL-WRITTEN, LIGHTHEARTED BUT HONEST account of a couple living through the disasters we all hope to be spared off but are so much part of live. It's a moving story about how love, trust and great willingness to accept loss and adversity, persevere and start fresh brings out the best and makes us grow. I found the book engaging and an easy read. While entertaining it will inspire you to take on your challenges with courage and humor.”

----- Dr. K. Fisher, Sebastopol, CA

“WHAT AN AMAZING COUPLE! *Looks Easy Enough* is a heartfelt tale of two independent souls who found each other, joined together and faced life obstacles in a real and honest way. Along that journey, they learned about themselves, each other and that the human spirit triumphs, even in the face of grave adversity! This is a must read for cancer survivors as well as a testimony for married couples and friends who support friends in time of need!”

----- S. MacDonald, Carlsbad, CA

“THE BOOK TACKLES A NUMBER OF PROBLEMS, divorce, destruction, and health issues. But don't think this book is all about life's misfortunes. It pulls the reader into a world that is magical as it is real. The story is quite personal but is told in a way that creates something that we somehow all can relate to, be it life's simpler joys, tribulations and inspirations or the more serious issues of disease, divorce and disaster. Mr. Stevenson's sense of humor makes the reader laugh throughout and makes the book a joy to read.

The book also has just enough tension and wonderment that I didn't want to put it down, enough inspiration and humor to keep you going, and enough serious issues to touch your soul. Well worth the read and enough to take away to make the whole endeavor worthwhile.”

----- K. Cote, Sequim, WA

THIS BOOK IS A MUST READ!! "Looks Easy Enough" has a little bit of everything to keep even the most discerning reader engaged. There is joy, sorrow, mystery, intrigue, and suspense, in addition to the D's- disease, divorce, and disaster. Stir in a financial roller coaster and you have a taste of what "Looks Easy Enough" is all about. Laugh and cry and ponder as Scott Stevenson masterfully weaves together the fabric that is his life. This is a book that you won't want to put down, and will have you asking for more!"

-----S. Graham, San Diego, CA

“IT’S GREAT TO GET A MALE PERSPECTIVE on the healing power of love! This touching book is about the power of love and it is wonderful to hear about that from a male perspective. Scott and Susan's story is inspirational and has much to teach those who have a tendency to get bogged down by life's challenges, missing the big picture. The spirit with which they navigated highly threatening events by repeatedly going to the well of their love and connectedness to each other and to the world is awe-inspiring.”

----- MM, Las Vegas, NV

"SCOTT STEVENSON IS GIFTED with the ability to observe and document in meticulous detail, and his natural curiosity makes this memoir a fascinating read. The story of the fire is gripping throughout, but the part that really got to me is the love story between a man and his wife. It is so unusual to look at marriage from the man's point of view. This is a grown up love story that proves there are second chances in the world of love. Drawing from their profound friendship, this couple rises to meet the challenges that life keeps sending and I, the reader, am left with a smile in my heart."

----- Nicola Ranson, LCSW, Encinitas, CA

"SCOTT, I JUST DECIDED TO OPEN your book and see what it was like. HA! Just a glance at it! HA! I am loving it. I enjoy your style of writing very much and the book is very easy and enjoyable to read. I am trying not to go through too quickly and savor it instead. The stories, as you tell them, are very captivating. One of my favorite things is the *asides* you have in italics - delicious!"
